No one likes to hear this, but we have only .01 second to make a first impression. But what's the best way to look good? Makeup, hairstyles, and clothing--not to mention a friendly smile--can of course make a big difference, but for the thousands of Americans who would like an extra edge, nonsurgical cosmetic procedures are the answer. But which procedures really work? How safe are they? And are they worth the time and money? From Botox to microdermabrasion to lasers to chemical peels, there are so many choices that it can be hard to tell what's hype and what's helpful.
